Journal articles

Generally acceptable principles for financial amortization: a modest proposal (with F. Beccece), *Decisions in Economics and Finance*, **47**, 2024.

Bipartite choices, *Decisions in Economics and Finance*, **45**, 2022, 551–568.

“Feature-weighted categorized play across symmetric games” (with R. Mülhenbernd), *Experimental Economics* **25**, 2022, 1052–1078.

Anatocismo nei piani di ammortamento standardizzati tradizionali (with F. Pressacco and 7 coauthors), *Rapporto Scientifico Amases* **1**, 2022.

What situation is this? Coarse cognition and behavior over a space of games (with R. Gibbons and M. Warglien), *Strategy Science* **6**, 2021, 124–140.

The probability to reach an agreement as a foundation for axiomatic bargaining (with L. Bastianello), *Econometrica* **87**, 2019, 837–865.

Categorization and cooperation across games (with R. Muhlerbend), *Games* **10**, 2019, 5.

Bargaining over a common categorisation (with N. Maagli), *Synthese* **193**, 2016, 705–723.

Convergence of outcomes and evolution of strategic behavior in double auctions (with S. Fano and P. Pellizzari), *Journal of Evolutionary Economics* **23**, 2013, 513–538.

On a preferential attachment and generalized Polya’s urn model (with A. Collevocchio and C. Cotar), *Annals of Applied Probability* **23**, 2013, 1219–1253.

The probability of nontrivial common knowledge (with A. Collevocchio), *Games and Economic Behavior*, **76**, 2012, 556–570.

The power of diversity over large solution spaces (with O. Surucu), *Management Science* **58**, 2012, 1408–1421.

Efficient egalitarian equivalent allocations over a single good (with A. Nicolò), *Economic Theory* **40**, 2009, 27–45.

Simple market protocols for efficient risk-sharing (with P. Pellizzari), *Journal of Economic Dynamics and Control* **31**, 2007, 3568–3590.

- Benchmarking real-valued acts (with E. Castagnoli, *Games and Economic Behavior* **57**, 2006, 236–253.
- The Pearson system of utility functions (with A. Sorato), *European Journal of Operational Research* **172**, 2006, 560–573.
- Breeds of risk-adjusted fundamentalist strategies in an order-driven market (with P. Pellizzari), *Physica A: Statistical Mechanics and Its Applications* **359**, 2006, 619–633.
- Tilting the supply schedule enhances competition in uniform-price auctions (with A. Pavan), *European Economic Review* **49**, 2005, 227–250.
- Fundamentalists clashing over the book: A study of order-driven stock markets (with P. Pellizzari), *Quantitative Finance* **3**, 2003, 470–480. [RePEc version and source code]
- Distributions for the first-order approach to principal-agent problems (with S. Spaeter), *Economic Theory* **21**, 2003, 167–173.
- Learning to make risk neutral choices in a normal world (with S. DellaVigna), *Mathematical Social Sciences* **41**, 2001, 19–37.
- Upper and lower bounds for expected utility, *Economic Theory* **16**, 2000, 489–502.
- Decision analysis using targets instead of utility functions (with R. Bordley), *Decisions in Economics and Finance* **23**, 2000, 53–74.
- A language for the construction of preferences under uncertainty, *Revista de la Real Academia de Ciencias Exactas, Físicas y Naturales* **93**, 1999, 439–450.
- Variations on the measure representation approach, *Journal of Mathematical Economics* **29**, 1998, 255–269.
- Ordinally quasiconcave functions (with M. Cigola), *Optimization* **40**, 1997, 25–36.
- Expected utility without utility (with E. Castagnoli), *Theory and Decision* **41**, 1996, 281–301.
- Fictitious play by cases, *Games and Economic Behavior* **11**, 1995, 64–89.
- Quasiconcave functions over chains, *Optimization* **24**, 1992, 15–29.
- On the decomposition of stochastic discounted cash flows (with F. Beccacece), *Rivista di Matematica per l'Economia e le Scienze Sociali* **14**, 1991, 59–73.
- Towards a general setting for the fuzzy mathematics of finance, *Fuzzy Sets and Systems* **35**, 1990, 265–280.

Books

Teorema dell'impossibilità di Arrow, Le Scienze, 2023.

La matematica dell'incertezza, Il Mulino, 2016.

Progress in Artificial Economics (with L. Milone and P. Pellizzari, eds.), LNEMS 645, Springer, 2010.

Teoria dei giochi, EtasLibri, 1995.

Chapters in books

A target-based foundation for the “hard-easy effect” bias (with R. Bordley and L. Tibiletti), in: M.H. Bilgin, H. Danis, E. Demir, and U. Can (eds.), *Country Experiences in Economic Development, Management and Entrepreneurship*, Springer, 2017, 659–671.

Pack light on the move: Exploitation and exploration in a dynamic environment (with D. Marchiori), in: S. Leitner and F. Wall (eds.), *Artificial Economics and Self Organization*, Springer, 2013, 205–216.

Talent management in triadic organizational architectures (with L. Milone), in: A. Teglio, S. Alfarano, E. Camacho-Cuena, M. Ginés-Vilar (eds.), *Managing Market Complexity*, Springer, 2012, 169–181.

Learning to trade in an unbalanced market (with F. Hauser), in: S. Osinga, G.J. Hofstede, and T. Verwaart (eds.), *Emergent Results of Artificial Economics*, Springer, 2011, 65–76.

Allocative efficiency and traders’ protection under zero intelligence behavior (with L. Milone and P. Pellizzari), in: H. Dawid and W. Semmler (eds.), *Computational Methods in Economic Dynamics*, Springer 2011, 5–28.

Symmetric equilibria in double auctions with markdown buyers and markup sellers (with R. Cervone and S. Galavotti), in: C. Hernandez, M. Posada and A. Lopez-Paredes (eds.), *Artificial Economics*, Springer, 2009, 81–92.

Zero-intelligence trading without resampling (with P. Pellizzari), in: K. Schredelseker and F. Hauser (eds.), *Complexity and Artificial Markets*, Springer, 2008, 3–14.

Which market protocols facilitate fair trading?(with P. Pellizzari), in: A. Consiglio (ed.), *Artificial Markets Modeling*, Springer, 2007, 81–97.

The allocative effectiveness of market protocols under intelligent trading (with P. Pellizzari), in: C. Bruun (ed.), *Advances in Artificial Economics*, Springer, 2006, 17–29.

Direct and indirect duality for dominance relations (with E. Castagnoli), in: P. Battigalli, A. Montesano and F. Panunzi (eds.), *Decisions, Games, and Markets*, Boston: Kluwer, 1997, 3–30.

Linear gears for asset pricing (with E. Castagnoli), in: R. Flavell (ed.), *Modelling Reality and Personal Modelling*, Heidelberg: Physica-Verlag, 1993, 33–47.

Science popularization

A portrait of the mathematical tribe, *Imagine Math 7: Between Culture and Mathematics*, Springer, 2020, 313–331. [\[PDF\]](#)

Probabilità non euclidea e altre spigolature, in: *Probabilità*, Istituto dell’Enciclopedia Italiana, 2019, 7–48.
